

Your Challenges Require Smart Solutions.

Full Range of Services for Your Reference Standards

Reference substances for use in pharmaceutical companies under GMP have to be qualified according to the relevant ICH Guidelines.

GBA PHARMA provides complete services within this area for substances that are not to be sourced from official bodies. Qualification documents fully fit the requirements of both USP and Ph.Eur.

Assay is performed by two independent and fully validated methods (HPLC and quantitative NMR). GBA PHARMA offers complete logistic services (storage, requalification and shipping).

Our Services:

- Advisory service
- Contract qualification of primary reference standards according to Ph. Eur. 5.12
- Establishment of working standards
- Definitions for storage conditions, stability testing and re-qualification
- Validation of analytical methods used for reference standard qualification (HPLC, GC, quant. NMR, quant. TLC)

Further information about our service portfolio can be found at www.gba-pharma.com
