

Your Challenges Require Smart Solutions.

Pharmaceutical Laboratories Your Experts for Pharmaceutical Analytics and Solutions

With a wide range of services, GBA PHARMA offers their international customers individual support from early stage of development to approval and quality control of their products.

Who We Are

- GBA PHARMA GmbH is a leading provider for analytical and consulting services worldwide
- 3 sites in Germany (two sites in the Munich area – former LPU sites and one site in Neu-Ulm – former Phytos site) with approx. 6,500 m² lab space
- More than 150 highly qualified employees
- LPU and Phytos were merged to GBA PHARMA GmbH in September 2017
- Two more sites work under the GBA PHARMA umbrella: Vienna based ABF Pharmaceutical Services GmbH providing clinical trial supply management as well as Pharmacelsus GmbH located in Saarbrücken, Germany, who

offers preclinical drug discovery and development testing including *in vitro* and GLP/non-bioanalysis

With a long-term expertise of up to 35 years in the pharmaceutical market analytical and regulatory full service is practiced with fast, flexible, and customer-oriented solutions. Thus, we are able to support our international clients in industry and academia during all stages of product life cycle.

Our partners benefit from a broad variety of methods and our competent and extensive services out of one hand.
